

INTRODUCING MEMORY AHEC

Memory Ahec is a native New Zealander born of Maori/Austrian descent. She was schooled at Wesley College, South of Auckland and graduated in 1994 with a degree in Nursing. After spending three years in the Private Practice field, Memory applied for and became the youngest Pharmaceutical Sales Rep to ever work in the business.

In just under 2 years the performance graph given her by the Company had leaped from the bottom left hand corner to the top right. She had a great career but it had reached its peak. While on holiday Memory's mother called and showed her a cheque she had received from the MLM business she was doing. "Unbelievable" was her reaction and she took the leap and left her job to join her mother's organization. Their successful networking business took them around the world, ending in New York, on the morning of September 11th 2001.

Four months later she and her mother decided to come home to New Zealand. Memory bought a mobile coffee cart and went into business. She now owns and manages two coffee carts, a trendy café, two Property Management sub-companies and a portfolio of 14 properties, and in her spare time does private property consulting...of this achieved in under 4 years.

For Memory, learning is always an active process. She believes one has to do something to make a change – it doesn't just happen - once you realize that, there's nothing to stop you doing anything that anyone else can do. She looks forward to bringing her remarkable success rate to her ACN business.
