

Introducing Michael & Ruth Ferreira

Mike was born in Auckland and grew up in a single parent family of the 50's and 60's. As a child he made a decision: "Never to be Poor" and has always been in what is termed as the looking zone.

Mike has been Self employed since his early twenties, is married to Ruth with three adult children and four grandchildren. Having done many things in his working life; driving trucks, working in the forestry and farming industry, done the huge hours and spent many weeks away from his family when they were young, Mike always knew that if he wanted more than the 95% he had to step up and do more.

He has also invested in property, managed other people's properties and now works in the building industry. When he first looked at ACN he said "No", but after reading the Success from Home Magazine from cover to cover the rest is history.

For Mike, ACN and all that it represents is the best thing he has seen since he started looking outside traditional business opportunities. Mike believed to change his family history he first had to change himself; it started with him taking that first step.

Mike and Ruth have many dreams: including spending time with their grandchildren and having a positive impact in their lives, travel, and impacting on the lives of others he meets along the way.

Mike states that "ACN is the vehicle for us – we see it as a huge blessing for us and our family – and there is nothing more fulfilling than to find and help others who want to move in the same direction with goals of time and financial freedom. We love it!"
