

***INTRODUCING
CHRISSIE HAMILTON***

CHRISSIE HAMILTON is a very successful businesswoman, based in Morrinsville, New Zealand. Together with husband and business partner Ross Hamilton we have 6 great children, aged 27 years down to 9 years, and we have combined our busy family life with successful traditional business over many years. However they were looking for a way to have more time freedom and the income to enjoy it. They see the challenge in life is having both time and money together, and both saw immediately with ACN that with little outlay and no risk, they could build a solid foundation that would not only pay them now, but could also leave a legacy for their family, that will keep on going for generations to come.

When their youngest was approaching school age, Chrissie knew she wanted to change her direction. Traditional business was no longer satisfying Chrissie, in fact, they were working harder for less, and working for someone else was simply not appealing. "ACN was tailor made for us, it has unlimited potential, the company has barely got started compared with where the company is going, plus we can build our business way outside of NZ.

Although we have no prior experience in the MLM industry, we are fully committed to looking for the solutions and simply following in the footsteps of successful ACN representatives. I believe very much in taking responsibility in all that I do, the word 'justify' does not exist in my language. The personal development is challenging and yet very rewarding, it is a journey we are excited to be on, plus we get to work with great people.
