

## Introducing Neville & Christine McQuoid

Neville was born to a farming family in the Waikato. School was not a priority and he could not wait to leave to enable him to drive Agricultural Contracting Machinery for his Uncle in Sth. Auckland. During this time he worked at repairing any night time breakdowns.

On leaving school Neville became a mechanic for W.A. Stevenson during the day, and and drove Euclide's at night, until he was old enough to get his Earthmoving Licence. This gave him more options.

Neville meet his wife and partner Christine at college, married young and have 3 wonderful adult children and 6 very special grandchildren.

Neville and Christine enjoyed coaching and playing sports in their younger years. Working together throughout their married life, they purchased their first of several business's when they were 25yrs old. They worked 7 days a week for a number of years.

Leaving the Waikato for Auckland in 1987 they developed a couple of business's and Properties. They then returning to the Waikato to run their 30 acre 'Life Style block' and manufacture Ride-on-Mowers for the NZ & Australian market - along with raising 100 bull calves per year.

After a bungled operation that left Neville unable to work for some time, it became apparent they had No Life Style & reluctantly moved to a smaller unit and into the Wholesale Battery business.

Neville's Network Marketing experience started soon after the purchase of their first business and had various degrees of success. Neville and Christine were introduced to ACN prior to the NZ ACN Launch in May 2006. Christine saw the potential right off. No physical products! (Yes!) What could be better? People helping people and being rewarded for doing so.

"For us this is huge, and we love it! Plus the added bonus of the personal growth we are going through with ACN and being with positive people every day is immeasurable."
